

MATH INSTRUCTOR

Job Description

Are you inspired to work with **students who are dedicated, highly motivated and at the top of their class**? Hamilton Education offers college planning, test-prep, academic tutoring and enrichment programs. We are looking for talented, experienced, and charismatic math teachers to run our ambitious math program. They will be teaching a Math class geared toward the SAT and ACT for 8 weeks during the summer with definite possibility into the fall and beyond.

Qualifications

- Extensive experience teaching math to middle school, high school, and/or college students
- A stellar, inspirational teaching persona who can teach students who love math and students who are math-phobic.
- An interest and background in math pedagogy
- Familiarity with SAT and ACT math
- A bachelor's or graduate degree in mathematics or a related field

Responsibilities

- Help in building and refining an effective math curriculum for SAT and ACT prep
- Assist in designing, creating, and executing an effective math enrichment program for 5th -12th grades
- Support in designing, creating, and executing engaging math programs for students involved in math competitions and mathematics research projects
- Must be available to teach the entirety of our summer term, June 17th - August 10th
- Must be available either from 8:30am -1:00pm OR 2:30pm - 6:30pm
- Experience with test prep (SAT/PSAT/ACT)
- Strong record of excellence in the classroom

Benefits of the Job

- We provide paid training and all course materials.
- Flexible schedule, with several locations to chose from (Carmel Valley and 4S Ranch)
- Work alongside some of the best and most experienced teachers in the city, in an environment where teaching is strongly valued.
- For teachers, this is a great opportunity to gain experiences and learn from the best.
- Teach the best and brightest students in San Diego. You will have fun in the classroom and get to design creative and challenging lessons.
- **Teach real skills, not tricks and strategies.**

How to Apply

Please click the APPLY button on the Careers page and include a current resume and (if applicable) a teaching portfolio, containing any materials that might help us judge your effectiveness as a teacher. This might include student evaluation, performance reviews, sample lessons, course syllabi, etc.
